Floor Scrubbing - Polishing & Buffing Machines

These machines are designed for deep cleaning on all types of floors (Marble, Mosaic, Granite, RCC, Vinyl, Carpet & etc.).

Four Functions - Washing Floor, Washing Carpet, Polishing & low speed burnishing.

Specially designed handle with grip for comfort and safer (safety switch for automatic OFF on unavoidable situations).

Adjustable handle - for different height adjustments, as required by the user.

Works by Gears and equipped with two capacitors for safer and more powerful

These machines can work with an attachment of foam generator (PR510) for less density of water in carpet washing and to dry the carpet quickly.

Teflon wheels - for longer life and also for easy movement, after job is over

Base rubber beading for avoiding damages

These machines help the operator to cover large areas of floor in a limited amount of time

Available floor brush, carpet brush, pad drive, pads (red, white, black) burnishing pad, Velcro drive board (grip pad drive), Grid pads.

To keep a floor finish looking clean and bright in a cost-effective manner

Model No.	Power	Voltage	RPM	Diameter	Main Cord	Weight
